SUMMARY

I am a Computer Science graduate with hands-on experience in full-stack web development using Django, Django REST Framework, React, JavaScript, HTML, and CSS. I have experience building responsive web applications, designing RESTful APIs, working with relational databases, and implementing authentication and CRUD functionality

TECHNICAL SKILLS

- Python
- JavaScript
- React.js
- HTML
- CSS
- Bootstrap
- RESTful API
- Django
- MongoDB

PROFESSIONAL EXPERIENCE

Site Reliability Engineer (INTERN) August 2025 - November 2025

- Worked with the Site Reliability Engineering (SRE) team to maintain infrastructure performance
- and uptime. - Monitored system metrics, logs, and alerts to ensure service reliability. - Assisted in
- CI/CD pipeline automation and deployment workflows. - Performed containerization tasks using
- Docker and basic Linux administration

Data Annotater Jan 2026- March 2026

- Created markdown documentation for data collection and preprocessing workflows.
- Standardized labeling procedures for consistent annotation across teams.
- Validated annotated data to ensure accuracy and quality before model training.

EDUCATION

Herald College Kathmandu — BSc (Hons) in Computer Science 2022 – 2025
University of Wolverhampton

- Specialized in AI, Machine Learning, and Software Development.

PROJECTS

Facial Recognition Attendance System (ESP32-CAM + Django)

- Built a smart attendance system using ESP32-CAM and Python.
- Integrated MTCNN + FaceNet facial recognition and automated attendance logging.

Blog Portal (Django REST Framework + React)

- Developed a full-stack blog application using Django REST Framework for the backend and React for the frontend.
- Built secure user authentication using JWT with login, registration, and protected routes.
- Implemented CRUD functionality for blogs, categories, and comments.
- Added nested comments, blog ratings, search, filtering, and pagination.
- Developed an admin dashboard to manage users, blogs, categories, and comments.
- Designed RESTful APIs and integrated them with a responsive React frontend using Axios.
- Used SQLite during development and Git for version control.

SOFT SKILLS

- Implemented full-stack workflow using Django and SQLite.

- Problem Solving
- Communication
- Teamwork
- Time Management
